Subject: microsoft settlement

Dear Judge,

I'm a concerned citizen who would like to voice her opposition to the proposed final judgment being considered in the Microsoft suit. Microsoft has used its Windows operating system to destroy competitors in other software markets, and every court has concluded that it has violated anti-trust laws. The proceeds of these violations is huge, yet this settlement does nothing to undo those profits, and if allowed to continue in these practices, it will certainly have serious consequences for the rest of the companies in this industry. If the proposed final judgment is adopted, Microsoft is the winner. I urge you to reject the proposed settlement.

Respectfully submitted,
Christine Scammon
Champlin, MN
